The CoinDesk Large Cap Select Index (DLCS) – Key Information & Risks

NFA Disclosure

Lyons Trading Group is a member of NFA and is subject to NFA's regulatory oversight and examinations. However, you should be aware that NFA does not have regulatory oversight authority over underlying or spot virtual currency products or transactions or virtual currency exchanges, custodians, or markets.

The The CoinDesk Large Cap Select Index (DLCS) tracks a diversified portfolio of cryptocurrencies custodied with Coinbase. This index reflects spot market performance and **does not include futures, options, or derivatives**. The CoinDesk Large Cap Select Index (DLCS) is designed to measure the market capitalization weighted performance of some of the largest and most liquid digital assets classified in the Digital Asset Classification Standard (DACS) that meet certain trading and custody requirements. The Index is based on DACS and Bitcoin was chosen as a benchmark for comparison purposes because it is most similar to the DLCS index and due to digital assets limited time in the investment space, our performance tracking software does not have any other similar benchmarks. The index performance does not include trading and other costs and you cannot invest directly in an index. Constituents must be included in DACS to be eligible for the Index. For more information on DACS including a description and definitions, please refer to the DACS Glossary. **HeightZero and CoinDesk Indices are not investment advisers nor make any representation regarding the advisability of any products described therein.* The performance shown has been adjusted for the following fees: 1% annual management fee, paid quarterly at 1/4th the annual rate. PAST PERFORMANCE IS NOT NECESSARILY INDICATIVE OF FUTURE RESULTS. NO REPRESENTATION IS BEING MADE THAT ANY CLIENT ACCOUNT WILL OR IS LIKELY TO ACHIEVE PROFITS OR LOSSES SIMILAR TO THOSE SHOWN. The performance shown is hypothetical based on the DLCS index and has not actually been achieved by any client. Bitcoin was chosen as the benchmark for this program because DLCS is primarily composed of Bitcoin, the lack of other cryptocurrency benchmark also played a factor.

Key Risks

Price Volatility: Cryptocurrency prices can change rapidly, sometimes exceeding 20% in a single day.

Valuation & Liquidity: Spot markets are decentralized; liquidity may be limited during stress periods.

Cybersecurity: Assets held in wallets or exchanges may be vulnerable to hacking or technical failures.

Opaque Market: Ownership and control may be difficult to verify, increasing operational and fraud risks.

Custodial Risk: HeightZero & CoinDesk implements security measures, but losses remain possible.

Regulatory Uncertainty: Changes in U.S. or foreign regulations may affect crypto markets and holdings.

Transaction Fees: Network and custodian fees may impact returns, particularly during market stress.
